The **Multivend** is a classic within the vending hygiene sector and can provide up to 9 product choices, therefore providing an ideal solution for all kinds of installations.

The **Multivend** can be wall-mounted and configured to dispense a wide range of leading brand name consumables, including condoms, tampons & towels, breath fresheners, toothpaste and toothbrushes, tights and painkillers. The **Multivend** is an ideal solution for customers and employees in hotels, gyms, shopping centres, airports, stations, leisure centres and more.

Price, coin and product changes can be reprogrammed using a simple internal keyboard. The unit has a digital display which indicates price, availability, stock levels and service requirements. Contemporary and stylish in design, the **Multivend** is available in a variety of finishes - ABS plastic, epoxy white steel and silver steel. The **Multivend** is also fully configurable and can be customised to suit your specific market requirements.
